may not be able to implement
coverflow style gallery but
something similar would be
nice where hovering or clicking
an image opens an enlarged
version

live

possible to have some sort of selector choosing vids from youtube channel? if not then a button to subscribe to youtube channel.

and image (opaque)

- ☐ song 1
- ☐ song 2
- ☐ song 3
- ☐ song 4

may prefer to have users scroll down for song playlist
